

# IMAS

A woman with long brown hair, wearing a white leotard, is posing dynamically. She is holding a large, gold, 3D ribbon that forms the number '20'. The ribbon is draped around her legs and arms. She is looking up and smiling, with one hand on her head.

# Welcome

Dear Colleagues,

What started in Paris 20 years ago, as a small group of physicians sharing their ideas on aesthetic science, has evolved into a leading international multi-specialty congress at the interface of plastic surgery and dermatology.

We have gone from strength to strength and around the world, all the while keeping our original French touch.

### Expansion

Over the last two decades, IMCAS has been continually expanding and innovating. Ten years ago we introduced our inaugural IMCAS Asia, which took place in Thailand. Since then, we have taken this congress around Asia, with congresses in Hong Kong, Singapore, Indonesia and Taipei as well as India, China and most recently the Americas.

We travel throughout the globe every year but our home is in Paris. IMCAS Annual World Congress is our landmark event and one of the most important congresses in the aesthetic science calendar. IMCAS 2018 will be a particularly special homecoming, as we will be celebrating our 20th anniversary.

### Innovation

Our expansion has not only been geographical; we have also moved into new teaching areas and introduced innovative formats, including debates, clinical case studies, live demonstrations, round table product analysis and full day modules, allowing participants to immerse themselves in one of our up-to-the-minute subjects. This year you can check out our latest additions, Target Courses and Video Classes.

Over the years we have also developed numerous strong partnerships with scientific societies around the world. We are proud to collaborate with more than 50 dermatology, plastic surgery and aesthetic science societies as well as renowned congresses.

### Celebration

In 2018, we aim to break all our previous records, with more than 8 000 attendees, 600 expert speakers and 250 exhibiting companies. We have created a rich scientific program delving deep into the hottest topics in the medical aesthetic field, and packed it into 270 learning hours over three days, to

ensure you can make the most of your time in Paris.

In keeping with tradition, we will get the congress off to a flying start with our famous full-day Anatomy on Cadaver Workshop. Simultaneously discovering the anatomy behind each part of the face and body while witnessing the practical application of treatments on patients.

Other highlights will include entire days dedicated to face, body and breast surgery, and the special anniversary sessions, where we trace the history of selected treatments over the last two decades. As an international organization, we are also excited about our Middle East, Eastern European and Chinese Masterclasses, where renowned experts will lead the discussion on regional differences, to ensure attendees come away with a deeper knowledge of the trends and markets in these regions.

Of course, with so many sessions to choose from, we are making sure you will never miss any session ever again with our platform IMCAS Academy! IMCAS Academy's approach of offering aesthetic learning anytime, anywhere has been an instant success and it is now the go-to reference for medical aesthetic information.

We are confident that IMCAS will continue to attract practitioners from all over the world wishing to deepen their knowledge.

As much as we expand, and as many innovations and advances we implement, we are still as young as ever, eager to keep growing and improving.

Join us as we celebrate two decades of excellence in aesthetic science. It's 20 years later, but together with you, we are certainly 20 years younger.

Dr Benjamin Ascher  
Plastic surgeon, France  
Founder and Scientific Director of IMCAS

Benjamin

KEY  
moments

31 Wednesday  
January

9 AM to  
6.30 PM

- Pre-congress workshop:  
World Rhinoplasty Video  
Symposium

2 to 8 PM

- Badge pickup & registration

COME EARLY  
AND SKIP THE QUEUE!

1 Thursday  
February

7 AM

- Badge pickup & registration

1 to 2 PM

2 to  
6.30 PM

- Optional Target courses  
Explore a topic in depth in an  
intimate setting. Sign up now
- China Masterclass

4.30 to  
6.30 PM

- Optional Video Class  
Enjoy practical learning. Sign up now

2 Friday  
February

7 AM

- Badge pickup & registration

8 AM to  
6.30 PM

- Middle East & North Africa  
Masterclass (MENA)

12 to  
6.30 PM

- Professional business focus:  
Aesthetics Innovation Forum &  
World Tribune

1 to 2 PM

6.30 to  
7.30 PM

- Networking Cocktail

3 Saturday  
February

7 AM

- Badge pickup & registration

8 AM to  
4 PM

- Eastern Europe Masterclass (EEMC)

1 to 2 PM

8 PM

- 20th Anniversary Gala Dinner

About  
CME

IMCAS offers its participants Continuing Medical Education credits (CME), which every practitioner requires in order to demonstrate his or her quality, and to bring himself or herself up to date on new medical developments.

IMCAS, being an international event, is commonly accredited at several levels according to the location. In recent years

IMCAS congresses have been consistently accredited in Europe, USA, China, Indonesia, Hong Kong, India, among other locations.

The number of CME credits that IMCAS offers its participants varies according to the duration of the congress and the accreditation organization, given that the requirements differ from one country to another.

Continuing Medical Education and corresponding accreditations are a trademark of quality in educational activities. Thus, bringing educational content of the highest quality is a priority at IMCAS.

IMCAS Annual World Congress 2018 is under process of accreditation/registration by the following institutions:

FRANCE	EUROPE	USA
Through the Agency of Continuing Professional Development (Agence de DPC)*	Through the European Accreditation Council for Continuing Medical Education (EACCME)* Event code: LEE17-00914 (full conference) and LEE17-00913 (Injection Cadaver Workshop)	Through the Accreditation Council for Continuing Medical Education (ACCME)* **

\*Application under process  
\*\*Valid for specific sessions only

# ANATOMY track

Anatomical review is crucial when planning aesthetic treatments and ensuring that patients receive the best outcomes.

We offer you a session dedicated to topographical anatomy for injections where experts will be asked to draw and describe the anatomical variations, possible dangers and how and which tools to use to ensure safe injections.

For a comprehensive full day review, do not miss out on the live Anatomy on Cadaver Workshop, unquestionably one of highlights of every IMCAS Congress.

Broadcast live from the "Fer à Moulin", Surgery School of Paris, our experts will demonstrate the latest aesthetics techniques on the relevant body parts, while offering

tips and tricks with an anatomical reference to get the best results for your patients.

Each session is composed of a live dissector, a live injector and will end with a comment by an expert and questions from the audience.

The Anatomy on Cadaver Workshop explores a number of important themes, including threads, vulvovaginal rejuvenation, injectables and fat injections.

How to ensure that you apply the best technique for a specific zone? How to avoid dangers zones whilst injecting? This is your chance to review your anatomical references and gain a visual understanding.

With the exceptional  
SUPPORT OF

"FER À MOULIN"  
SURGERY SCHOOL OF PARIS

dealing with the risks and complications of injectables.

Through the product analysis session we aim to give you an unbiased look at the latest products and devices on the market. This year we are focusing on botulinum toxins and HA seringability.

These sessions present a comparative study, with round-table discussion with manufacturer representatives.

You can also see some of these and other products and devices in action, with a full day of live patient demonstrations. Through these sponsored sessions world leading laboratories will showcase their latest products and demonstrate the best techniques to produce optimal results.

The popularity of all minimally invasive treatments is on the rise, with fillers and botox continually being among the most sought after treatments. Their short recovery time and strong media presence serves to make them attractive to all different types of patients.

Through the injectable sessions we aim to give you the knowledge and tools to produce the best results for your patients. In particular, sessions will focus on the orbit, temple, perioral and lower regions of the face.

Of course with any procedure, even minimally or non-invasive ones, there are dangers involved. It is important to address these head on; therefore we have dedicated several sessions to avoiding and

LASERS, EBD & BODY SHAPING track

The perfect body? This is the number one goal of many patients and through lasers, EBD and other body shaping treatments we can help them reach it. We will cover a range of body shaping approaches, including lipolysis, cryotherapy, radio frequency, and ultrasound. You can expect to hear the latest research on these treatments plus impartial discussions on the pro and cons and the risks associated with them and elaborate the best protocol.

Of course, body shaping is only one of the many diverse ways that lasers and EBD can be used. The perfect lips, a new look or an ovale of face, hand rejuvenation? How to prevent and treat scars? Lasers and EBD combined with other techniques allow for a complete result. A number of sessions will also cover their use for facial skin tightening, drug delivery, hair removal, and

skin conditions such laser on high phototype or melasma. Moreover, you will have specific focus on Co2 and Q-switched lasers, RF and PDT within sessions organised in collaboration with the French Laser Group and the ESLD.

The new interactive formats this year are medical and aesthetic cases specially prepared for a panel of experts who are expected to respond instantaneously. There are also several sponsored live demonstrations dedicated to lasers and EBD, plus product analysis round-tables. These sessions will ensure you have all the information necessary about the different products available, to enable you to make informed decisions for your own practice.

Mark these sessions in your program to enhance your knowledge of these versatile tools.

  - S288 Target course – Skin pigmentation

SUSPENDING DEVICES track

Threads and suspending devices are a good alternative for those who are not interested in surgery, or for those who have already had surgery and just want a little extra lift.

Through the threads and suspending device sessions you can learn how to choose the right thread for the situation, including how anatomy should influence your decision. Plus, learn how to successfully combine them with other treatments to produce superior results for your patients.

We’ll cover the use of threads to not just lift the face, but also the entire body. Experts will share their tried and tested thread techniques for the buttocks, breasts, hips, inner thighs and abdominals.

In addition to the focus sessions you can also attend the product analysis session where experts and manufacturers will discuss the cutting-edge novelties with threads. And through the sponsored live demonstration sessions you can watch the procedures be performed on patients, and see the results for yourself.

COMBINED TREATMENTS track

In the search for the most natural and effective results, combined treatments are becoming more and more popular. Using more than one treatment often achieves results that a single treatment cannot.

to produce the best facial rejuvenation results. Through combined treatments you can tailor your approach to best meet the needs of your individual patients.

Join us as the experts provide their best tips and tricks.

Therefore we are pleased to be able to bring you sessions dedicated to these with a focus on facial rejuvenation. Fillers, injections, lipofilling, liposuction and surgery can all be used in conjunction

# PRACTICE MANAGEMENT track

**D**iscover how to make your practice stand out from the rest! The full day practice management module will ensure you have the tips and tricks you need to make your practice a success.

Join economic experts in the aesthetics field, including representatives from major aesthetic medical companies, financial analysts and journalists as they discuss strategies for reaching new clients, building your business, and ensuring your practice runs smoothly.

This year the module will feature sessions on a number of important themes, including online and social media image, diversifying your business for other revenue and managing unhappy patients. Attend the whole module or just choose the sessions that would most help your business.

There is also the opportunity for question and answers at the end of each session - don't miss this chance to benefit from the knowledge of our experts!

## Follow the track

### FRIDAY • 8 AM to 6.30 PM

### SATURDAY • 3 to 4 PM

- Target course - Social networks **S286 •**

# COSMECEUTICALS track

**T**he popular module is back for its 4th edition at IMCAS Annual World Congress 2018.

Anywhere in the world skin and hair pigmentation disorders is among the top three unmet needs reported by doctors. This year we are focusing in particular on skin and hair pigmentation (where genes and environment meet). Experts, including scientific researchers, doctors and industry representatives, will discuss the latest research in this field, and how it is being developed into treatments.

From basic science to applied research and “how to treat with cosmeceuticals” sessions we are offering you a deep dive in pigmentary disorders.

You'll also have the chance to see the treatments in actions during the patient demonstration module where experts will explain how to use cosmeceuticals post-treatment and what their benefits are.

Finally, the last hour of the module will be dedicated to a roundtable discussion of what we can expect in the cosmeceutical field over the next five years, with an opportunity for you to ask the experts any burning questions that you may have.

As the field grows, there has been much debate about whether these products are effective and what their place is in cosmetic dermatology and plastic surgery. Join this module to analyze cosmeceuticals and their role in the treatment of hair and skin health for yourself.

CLINICAL DERMATOLOGY track

More and more aesthetic dermatologists are now expanding their practices into clinical dermatology to keep up with the growing demand. We are expanding with them, and are pleased to bring you a full day dedicated to clinical dermatology.

In these sessions the experts will take you through treatments for some of the most prevalent dermatological conditions, including acne, psoriasis, skin cancer and pigmentary disorders.

We'll explore the efficacy of lasers, superficial radiation therapy and medications.

In addition, we will spend two hours examining the latest clinical advances in the dermatology field, including research into hormonal influences and treatments consensuses, and advances in drug therapies and supplements.

These sessions will expand the knowledge of those already familiar with clinical dermatology, as well as provide a thorough introduction for those just entering the field.

Follow the track

FRIDAY • 8 AM to 6.30 PM

- Optimizing treatments for acne & rosacea **S113 •**
- Clinical dermatology advances 1 **S114 •**
- Psoriasis: what you need to know **S115 •**
- In-depth approach to pigmentary disorders **S116 •**
- Skin cancer & actinic damage: from diagnosis to treatment **S117 •**
- Clinical dermatology advances 2 **S118 •**
- Scars & healing **S119, 120 •**

SATURDAY • 8 to 9 AM

Target course – Scars **S281 •**

SATURDAY • 5.30 to 6.30 PM

Target course – Pigmentation **S288 •**

RHINOPLASTY & FACE SURGERY track

Rhinoplasty and face surgery have a rich history in aesthetic medicine. Always in demand, the practices and techniques are continually evolving. To ensure your knowledge remains up-to-date in this ever-changing field, we bring you a full day of sessions dedicated to rhinoplasty and face surgery.

The first half of the day is dedicated to rhinoplasty, focusing on producing optimal results for the lower third and nasal tip, plus the different camouflage materials used for grafting and the biological factors to consider.

There will also be live patient demonstrations of injections with commentary from the faculty.

Turning to face surgery, we'll first look to the past, examining how facelifts have changed over the last two decades, and then to the present and future, with a discussion on the latest developments in eyelid and eyebrow surgery.

Don't miss the opportunity to learn about face surgery and rhinoplasty direct from the experts. Pick and choose the sessions that will provide the most benefit to you, or attend the whole day to get a comprehensive overview of this field.

Follow the track

WEDNESDAY • 9 AM to 6.30 PM

• **World Rhinoplasty Video Symposium**

This rhinoplasty pre-congress workshop is a full day video symposium organized by the International Rhinoplasty Research Society (IRRS) in collaboration with IMCAS. This comprehensive workshop will explore every aspect of rhinoplasty, from soft tissue and ligaments, to the bony nasal pyramid and nasal valve and function.

THURSDAY • 9 AM to 6.30 PM

- **S65, S66** Rhinoplasty: lower third and nasal tip
- **S67, S68** Rhinoplasty: camouflage
- **S69, S70** Showcasing advanced techniques in medical profiloplasty
- **S71, S72** Re-examining 20 years of facelift
- **S75, S76** Improving results in eyebrow, upper eyelid and lower eyelid surgery
- **S95** Target course – Rhinoplasty

FRIDAY • 8 to 10.15 AM

- **S185** Target course – Eyelids
- **S186** Target course – Facelift

## Who's in the track? (preliminary list)

Dr ANDJELKOV Katarina, Dr ASLANI Alexander, Dr BENITO RUIZ Jesus, Dr BRANFORD Olivier, Dr CORTINAS Fabian Eduardo, Dr CORMENZANA OLASO Pedro, Dr DIBERNARDO Barry, Dr DUNCAN Diane Irvine, Dr FITOUSSI Alfred, Dr GARSON Sebastien, Dr HEDEN Per, Dr HONART Jean Francois, Dr HOYOS ARIZA Alfredo Ernesto, Dr KALAAJI Amin, Dr LEYMARIE Nicolas, Dr LIU Daniel, Dr MOSAHEBI Afshin, Dr NAHABEDIAN Maurice, Dr NAHAI Foad, Dr NOAH Ernst Magnus, Dr PASCAL Jean Francois, Dr RANCATI Alberto O, Dr ROUIF Michel, Dr SARFATI Benjamin, Dr STAN Constantin, Dr STERODIMAS Aris, Dr TIRYAKI Tunc, Dr VANDEPUTTE Joan, Dr YOSHIMURA Kotaro

The desire for the perfect body and breast is nothing new but many of the techniques and practices used to produce them are.

Much has changed in these fields since the first IMCAS congress two decades ago. Join us as we take a journey through the years and examine 20 years of evolution in abdominoplasty and breast implants. These sessions are in our new dynamic 'battle' format, allowing full interaction between the chairs, speakers and audience.

Next, discover what these evolutions have led to. Throughout the entire day on Saturday, our experts will discuss

the latest research in breast and body surgery. Sessions will cover both new trends and common problems in breast reconstruction, and how to get the optimal results out of body surgery. We'll also be examining the potentially more risky bariatric and buttock lifting surgeries, with a focus on safety and efficacy.

Throughout the sessions there will be the opportunity for questions and answers with the speakers, so come prepared to get involved. These sessions are essential for anyone looking to expand their knowledge on the research and practices of breast and body surgery.

## Follow the track

### THURSDAY • 11 AM to 6.30 PM

- Abdominoplasty: 20 years of evolution **S51, S52 •**
- 20 years of breast surgery implants **S53, S54 •**
- Modern practice in breast-plasty **S55, S56 •**

### FRIDAY • 11 AM to 12 PM

- Target course – Breast implants (advanced) **S187 •**

### SATURDAY • 8 AM to 6.30 PM

- New trends in breast reconstruction **S257 •**
- Common problems in breast reconstruction **S258 •**
- Aesthetic bariatric surgery **S259, S260 •**
- Review and golden rules in buttock lifting **S261 •**
- Improving results in body surgery **S262 •**
- Video class – Surgical procedures for legs / thighs / buttocks **S263, S264 •**
- Breast implants for beginners **S265, S266 •**
- Target course – Buttocks **S283 •**

# LIPOFILLING & PRP track

Join this full day module to enhance your knowledge of the use of the growing treatment trend of lipofilling and PRP.

Our experts will take you through lipofilling techniques for the face, breast and buttocks and propose strategies for facial rejuvenation, highlight how fat grafting can be used in breast augmentation and focus on complications and how to maintain patient safety.

To ensure you are ahead of the curve in all the latest developments, there is also session focusing solely on innovations in the lipofilling field. Discover cell therapy, cryopreservation, acellular dermis and autologous skin microfat.

The final three hours are dedicated to applied techniques, through the lipofilling video workshop. This video workshop will feature practical training through video presentations prepared by experts. Attend to improve your techniques.

During IMCAS Annual World Congress 2018, you will also learn the different PRP preparation and quality control techniques and have an overview of the most up-to-date indications in the aesthetic field.

Described as an easy, fast, effective, cheap, and safe product, PRP has been the subject of increased clinical interest in many diverse medical fields. The market has literally exploded with more than 20 CE marked medical devices available for PRP preparation using variable separation methods.

## Follow the track

### THURSDAY • 2 to 5.30 PM

- S87** Product analysis – Lipofilling tools
- S93** Target course – Platelet Rich Plasma

### FRIDAY • 8 AM to 6.30 PM

- S121** Alopecia and cellular therapy – Stem cells and PRP
- S122** Highlights from experts for face lipofilling
- S123** The do's and don'ts in breast lipofilling
- S124** Rise to the challenge of buttock lipofilling
- S125** Innovative trends in lipofilling
- S126 to S128** Lipofilling video workshop

### SATURDAY • 4.30 to 6.30 PM

- S279** Product analysis – PRP
- S280** Advances in PRP & regenerative medicine

# GENITAL TREATMENTS module

**THURSDAY FEBRUARY 1, 2018 • from 9 AM to 6.30 PM**

**FRIDAY FEBRUARY 2, 2018 • from 9 AM to 6.30 PM**

The famed Genital Treatment module returns at IMCAS Annual World Congress 2018. Spread over two days, this module is designed in collaboration with a number of learned aesthetic gynecological and genital restoration societies.

The genital treatment module will explore a range of treatments and techniques for genital restoration, from non-invasive to surgical treatments.

There will be the opportunity to explore both male and female anatomy in depth during the Anatomy on Cadaver – genital treatments session as well as sessions dedicated to male impotency and penoplasty.

Finally, the module will tackle a number of challenging subjects for this sensitive area, including menopause, surgery and complications.

This module will appeal to not only gynecologists, but to anyone interested in aesthetics.

## Program

**THURSDAY • 9 AM to 6.30 PM**

**S7 •** Vulvovaginal and male genital anatomy (Cadaver Workshop)

**S17 •** Genital syndrome of menopause

**S18 •** Addressing surgical genital complications

**S19 •** Critical analysis of non-invasive methods and techniques used for functional and aesthetic genital restoration

**S20 •** Genital treatments laser and EBD

**SATURDAY • 8 AM to 1 PM**

**S233 •** Contributed Talks – New trends in genital treatments

**S234 •** Advances in genital treatments

**S235 •** What's new in erectile dysfunction

**S236 •** What's new in penoplasty

## OUR 3 REGIONAL MASTERCLASSES

Aesthetic desires differ from region to region and culture to culture. In order to produce the best results for your patients it is important to be aware of these differences and tailor treatments to the individual patients. Therefore we are please to be bringing you three targeted regional masterclasses covering a range of different aesthetic themes

Each masterclass is organized with the collaboration of one or several scientific societies from the region and will welcome speakers from both the region in question but also from around the globe. The aim is to provide practitioners with a worldwide-view, knowledge and tools to produce optimal results.

These masterclasses are the perfect opportunity to uncover the specificities of the region and learn tips and tricks on techniques from the experts.

### CHAIRS

**ZHANG Bin**  
Plastic surgeon  
China

**BERRENI Nicolas**  
Gynecologist  
France

**BERROS Philippe**  
Oculoplastic surgeon  
France

**CUI Haiyan**  
Plastic surgeon  
China

**MARES Pierre**  
Gynecologist  
France

**SONG Jianxing**  
Plastic surgeon  
China

**WANG Jianliu**  
Gynecologist  
China

**ZHU Guozhang**  
Plastic surgeon  
China

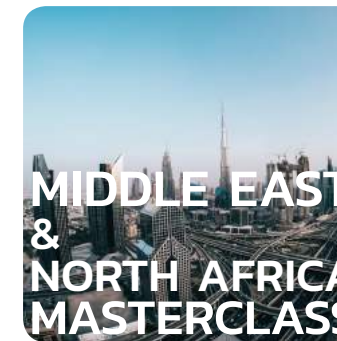

### SPEAKERS (preliminary list)

**Dr HUMZAH Muhammed Dalvi,**  
**Dr KESTEMONT Philippe,** **Dr LIANG Hong,**  
**Dr LIU Hongwei,** **Dr SMARRITO Stephane,**  
**Dr SONG Weimin,** **Dr YI Chenggang**

## Sneak peak at THE PROGRAM

**THURSDAY • ROOM 10 • 2 to 5 PM**

- S77** Combined treatments in Asian morphotypes
- S78** Fat grafting
- S79** Orbito-palpebral pathologies
- S80** Genital treatments

### DIRECTOR

**BADAWI Ashraf**  
Dermatologist  
Canada

### COORDINATORS

**GHANNAM Sahar**  
Dermatologist  
Canada

**NOUR EL DIN Ahmed**  
Plastic surgeon  
Egypt

### SPEAKERS (preliminary list)

**Dr ABOZEID Mohamed,**  
**Dr ABULHASSAN Hussein S,**  
**Dr BOSSEILA Manal,**  
**Dr EL GAREM Yehia Farouk,**  
**Dr EL MORSY Eman Hamed,**  
**Dr FENNICHE Samy,** **Dr GHANEM Lobna,**  
**Dr INALLOZ Huseyin Serhat,**  
**Dr JAF Mohammed Y,**  
**Dr LABIB Lamya Hussein,** **Dr LEHETA Tahra,**  
**Dr RATEB Amr,** **Dr SADEK Ahmed M**

## Sneak peak at EACH PROGRAM

**FRIDAY • ROOM 2 • 8 AM to 6.30 PM**

- S105** Minimal invasive body shaping
- S106** Updates in injectables
- S107** What you need to know in lasers & EBD
- S108** Threads and combined treatments
- S109** Contributing lectures on challenging cases
- S110** Practice management, marketing and communication
- S111** State of the art in regenerative medicine
- S112** Plastic surgery operations, how can they differ?

### DIRECTOR

**LANDAU Marina**  
Dermatologist  
Israel

## AESTHETICS INNOVATION FORUM

FOSTERING INNOVATION AND ENTREPRENEURS

IN COLLABORATION WITH ADVANCING INNOVATION IN DERMATOLOGY AND MASTERS OF AESTHETICS SYMPOSIUM

## IMCAS & WORLD TRIBUNE

*"Tomorrow's most promising start-ups"*

Everyday innovators are looking for opportunities to bring exciting new products and devices to market, and venture capitalists and CEOs are looking to invest in cutting-edge innovations.

For the first time, IMCAS, in collaboration with the Dermatology Summit and the Masters of Aesthetics, is hosting the Aesthetics Innovation Forum to gather these key international leaders in the field all in one room together.

Throughout this three-hour program we will build a community of individuals and organizations in aesthetic science who are excited about developing ideas into products which can substantially improve skin health and appearance.

The forum focuses on educating participants about inspiring innovations that can provide the basis for the generation of a mutually beneficial relationships among investors, strategic corporate partners, service providers, government regulators, patient advocates, and other stakeholders.

A shark tank session will welcome selected start-ups to present the innovations of tomorrow. An award will be provided to the most convincing pitch.

This forum also provides a unique networking venue for its attendees to communicate with, learn from and collaborate with leaders that have brought game-changing products from concept to market.

Come to this workshop to discover the latest innovations, before they have hit the market, and learn how to become a successful innovator!

*"Interact with the top CEOs"*

**PART 1.**  
**MARKET ANALYSIS (4:35 TO 5:15 PM)**  
Moderated by Laurent BRONES

**A shift in the center of gravity of consolidation from fillers to EBD reshapes the medical aesthetics sector**

By Jean-Yves COSTE, Senior Healthcare Director, Michel Dyens

**A five year analysis of mega trends driving aesthetic device growth**  
By Michael MORETTI, President and CEO, Medical Insight Inc.

**Giving your portfolio a face lift:**  
**Marketing trends & competitive strategies in facial aesthetics**  
By Ken MCLAREN, Head of Research and Operations, Decision Resources Group

**The universe of medical spas**  
By Alex THIERSCH, Founder and Director, AmSpa

**PART 2.**  
**ROUND TABLE FACE TREATMENT (5:15 TO 5:40 PM)**

CHERON Michel  
CEO  
Vivacy

NAYA Juan  
CEO  
ISDIN

PRINZ Andreas  
CEO  
Croma Pharma

FOUCHER Christophe  
CEO  
Filorga Medical

OZER ARMON Tzipi  
CEO  
Lumenis

TAUPIN Valérie  
CEO  
Teoxane

HARRIS Leslie  
Global General Manager  
Skinceuticals

**PART 3.**  
**ROUND TABLE BODY TREATMENT (5:40 TO 6:05 PM)**

CHACON QUIROS Juan José  
CEO  
Establishment Labs

KARNI Ziv  
CEO  
Alma Lasers

THORNAL Kevin  
Cynosure Division President  
Hologic

GUENTER Peter  
CEO  
Almirall

**PART 4.**  
**ROUND TABLE PHARMA PLAYERS (6:05 TO 6:30 PM)**

BRENNAN Alexandre  
VP Aesthetic & Corrective Global Business Unit  
Galderma

BURCHARD Philip  
CEO  
Merz

PRINCEN Marc  
President, International Business  
Allergan

### Coordinators

**ASCHER Benjamin**  
Plastic surgeon  
France

**BRONES Laurent**  
Business development manager,  
Symatase  
France

**CHIGNON Thierry**  
Senior Partner,  
Merieux développement  
France

### Objectives

- Evaluate the global aesthetic medical market
- Examine the scope for market growth
- Understand the strategies and outlooks of major aesthetic companies, including new players
- Stay up to date with the latest economic news including mergers, acquisitions, regulations, etc.
- Exchange directly with the industry leaders through an interactive platform

### REAL TIME

- Ask your questions, participate in the debates and share your comments at anytime during the session using our exceptional interactive platform online:

**LIVE  
IMCAS  
COM**

**NICHOLSON Peter**  
Managing partner,  
ALTEKA  
Switzerland

### Introduction

**PART 1. Chairs: Laurent BRONES, Peter NICHOLSON**

**State of the industry: how to attract capital for new innovations**

Speaker to be announced

**How entrepreneur need to behave facing funding and partnership**

By Peter NICHOLSON, Managing Partner, Alteka

**Panel discussion with venture capital firms / investors**

**PART 2. Chairs: Serge MORDON, Arisa ORTIZ**

**Bringing innovation to market**

By Frederick BEDDINGFIELD, Dermatologist, USA

**Panel discussion with industry CEOs**

**PART 3. Chair: Dominique DU CREST**

**What's the future: aesthetic problems worth solving**

By Dieter MANSTEIN, Dermatologist, USA

**PART 4. Chairs: Benjamin ASCHER, Mathew AVRAM**

**Shark tank: Welcoming start-ups presenting the innovations of tomorrow**

Several presentations followed by Q A

10 minutes for voting and award announcement

Vote for "IMCAS Innovation of the year" award

### Conclusion

# From where does IMCAS retrieve its revenue?

IMCAS derives its revenues either from industry subscriptions or from physician subscriptions. It conducts educational activities, but is also a profit-seeking business.

## HOW CAN WE RESOLVE THESE TWO INTERESTS?

Simply, by allowing out participants to distinguish clearly and at all times the activities that are sponsored from those that are not.

Thus, Industry parties may support IMCAS by providing either an **EDUCATIONAL GRANT** or **SPONSORSHIP**. Let's explain and state each one of these two supports.

## Sponsorship

Sponsorship is the direct financial support of an activity. Sponsoring an event therefore involves a partnership between the two parties. In return for financial support of a live demonstration, a symposium or a guest lecture, the sponsoring company may present syntheses of studies or trials, practical solutions to specific patient problems and/or live demonstrations to the audience. The content of these sponsored sessions is therefore not endorsed by IMCAS.

The Motiva masterclass® below and all activities described on pages 30 to 35 are **SPONSORED** at IMCAS Annual World Congress 2018

### MOTIVA® MASTERCLASS - BREAST IMPLANTS

WEDNESDAY, JANUARY 31 • PALAIS DES CONGRÈS, LEVEL 3

Live transmission from Clinic Alphand, 75116, Paris to the conference venue, Paris

**Contact:** Ms. Tatiana BERGER - tberger@establishmentlabs.com

MEET  
OUR SPONSORS

## Educational grants

An educational grant is a financial donation with no exchange partnership at stake. Unlike sponsorship, which is characterized by a bilateral exchange implying that the receiver promotes the sponsor, the grant is a unilateral gesture. Funds are given by the donor to support a project or program. The scientific content is entirely developed and chosen by the Scientific Committee and is therefore eligible for CME Accreditation.

All sessions below benefit from **EDUCATIONAL GRANTS** at IMCAS Annual World Congress 2018

# Why our attendees *love* IMCAS's Annual World Congress\*

*"Fantastic conference! The breast surgery panels and presentations were high quality and very educational."*

Maurice NAHABEDIAN  
PLASTIC SURGEON, US

*"Great, leading congress in aesthetic medicine. Most innovations start with IMCAS."*

Klaus FRITZ  
DERMATOLOGIST, GERMANY

*"Wonderful congress with lots of new information and cutting edge technology and techniques. One of the most important aesthetic congresses for any physician to attend."*

Hsien Li Peter PENG  
DERMATOLOGIST, TAIWAN

*"Great conference, great speakers, great quality, great venue. All in all, a lasting experience."*

Armin KOESTINGER  
OCULOPLASTIC SURGEON, SWITZERLAND

*"IMCAS World Congress offers the most updated and evidence-based education in cosmetic dermatology and aesthetic surgery. What we learned here truly benefits our patients."*

Po Han Patrick HUANG  
DERMATOLOGIST, TAIWAN

*"It was fantastic. I wish I had more energy and time to attend even more than I did. I will be back next year."*

Margie LYNCH  
MD, IRELAND

*"I love that there are a lot of topics and that the speakers are well known and continuously upgrading their knowledge. I'll come back next time."*

Ristal HERNANDEZ  
MD, MEXICO

*"I believe that the IMCAS World Congress 2017 was the most beautiful, interesting and productive meeting between medical experts in recent years."*

Pier Luigi CANTA  
PLASTIC SURGEON, ITALY

\*Feedback from IMCAS Annual World Congress 2017

# CALL FOR ABSTRACTS

WANT TO BE A *SPEAKER* AT  
A FUTURE IMCAS CONGRESS?

## BE PART OF OUR CONTRIBUTING SESSIONS

**S**EIZE THIS OPPORTUNITY TO GAIN RECOGNITION  
FOR YOUR WORK AND BOOST YOUR PROFILE AMONG  
THE WORLD'S LEADING EXPERTS IN AESTHETIC SCIENCE!

Submit an abstract now for IMCAS World Congress 2018 for the  
chance to lecture at a key event in the aesthetic science calendar.

The deadline for abstract submission is Friday, 22nd December.  
Abstracts received after this date will not be considered.

## ABSTRACTS FALL INTO TWO TYPES:

### New tech

This abstract must be about an innovative  
product or device that has been on the  
market for less than a year or is still in  
development. Only engineers and inventors  
may present in the new tech category.  
Abstracts must include a brief statement on  
the purpose of the study, explaining what  
makes the device, technology or product  
innovative. IMCAS does not endorse any  
content.

Once you have completed your abstract  
submission, you can check its status at any  
time by logging onto your IMCAS account.

You will receive a definitive answer  
regarding the inclusion of your lecture in  
the conference within 30 days following  
submission.

### Free coms

This abstract must be about a scientific study  
conducted by a registered physician.

Abstracts must include a brief statement of  
the purpose of the study, the method used,  
the result observed and the conclusions  
based on the results.

Please note that for a free coms abstract  
you should show complete independence  
from any industry and no brand should be  
named within your lecture unless it is being  
compared with other brands to support a  
specific point.

FOR FURTHER INFORMATION  
VISIT OUR WEBSITE:

## INDULGE

### *Le Cinq*

If you fancy treating yourself during your trip to Paris, look no further than Le Cinq at the Four Seasons Hotel George V, not far from the beautiful Avenue des Champs Élysées. At the helm of this three Michelin starred restaurant is the down-to-earth chef Christian Le Squer, who expertly puts a modern twist on the timeless French classics.

Come to Le Cinq for opulent interiors with old-world charm, impeccable service (complete with silver trays and white gloved waiters), delectable dishes, and wine cellar of almost 50,000 bottles.

31 avenue George V, 75008

Paris may be the city of lights, but that's not the only thing it's famous for.

Down almost every street you'll find somewhere delicious to eat, from cheap 'hole-in-wall' family run canteens, to Michelin starred restaurants producing haute cuisine.

We have gathered up a few of our favorites for you to discover.

CULINARY  
PARIS

## SOMETHING SWEET

### *Jacques Genin*

Jacques Genin is known by many as the best chocolate maker in the world. And it is easy to see why he has gained this reputation. This self-taught chocolatier creates some of the most exquisite chocolates that you can find in Paris (or the world), using a variety of exotic flavors, including Sichuan pepper and Madagascan vanilla.

But there is not just chocolate on offer. You'll also find caramels, nougats, pâtes de fruits and pastries to take home with you. Or stop by the tea salon in the Marais for an indulgent pot of hot chocolate.

133 rue de Turenne, 75003 and  
27 rue de Varenne, 75007

## A TRIP TO THE MARKET

### *Le Marché des Enfants Rouges*

Marché des Enfants Rouges, or Market of the Red Children, is housed on the site of a 16th-century orphanage. Now it is a deluxe food market, with organic produce and fresh seafood. And if you don't fancy preparing the food yourself, don't worry. There is a range of restaurants within its walls that are sure to satisfy any craving.

The only difficulty is deciding what to eat. You can choose from Lebanese, Moroccan, Italian, Japanese or Caribbean cuisine. There is also an organic restaurant and a burger bar, serving homemade burgers and fries made with products directly from the farm.

39 rue de Bretagne, 75003

## TRADITIONAL FARE

### *Bistrot Paul Bert*

On a street packed with fantastic restaurants, Bistrot Paul Bert stands out from the rest. Housed in an old butcher shop, this traditional style bistro has been serving up authentic French food for close to 20 years.

Don't expect over the top dishes here. The dishes are presented very simply to ensure the quality ingredients are the real stars. Try the fresh oysters or any of the other delicious seafood dishes, and make sure not to skip the Côte de Boeuf served with homemade fries. But save room for dessert! The classic French desserts are all made in-house.

18 rue Paul Bert, 75011

## FROM THE REGIONS

### *Breizh Café*

Come to Breizh Café for an authentic taste of Brittany in the middle of Paris. Here you can find delicious buckwheat galettes and crêpes, made with top quality ingredients from the best Breton producers.

Order the smoked herring galette with potatoes from Saint-Malo as main course, followed by salted butter caramel crêpe for dessert. And of course it wouldn't be a Breton meal without some cider. The cellar boasts a selection of more than 60 different varieties.

109 rue Vieille du Temple, 75003  
and 1 rue de l'Odéon, 75006

# IMCAS Academy

BE PART OF THE FASTEST GROWING COMMUNITY

*Anytime, Anywhere*

**AS A MEMBER OF THE IMCAS ACADEMY, ALL I CAN ASK IS WHY ARE YOU NOT ALREADY A MEMBER TOO?**

With its ease of use and extensive library, the IMCAS Academy is now the Number 1 social learning platform for dermatology, plastic surgery and aesthetic science.

There are over 1800 presentations and 400 courses on 15 different themes, including injectables, lasers and EBD, suspending devices, cosmeceuticals, face and body surgery, and practice management. It is the perfect way for me to not only refresh my knowledge during the year, but also to discover entirely new topics. And it ensures I never have to worry about missing a lecture or session during an IMCAS congress.

But IMCAS Academy is more than just a video library. There are also monthly webinars to take part in and blog articles to read. Furthermore I can keep in touch with my peers during the year and make new connections.

Plus I am very excited about the newest innovation on IMCAS Academy – IMCAS Alert. With this platform I know that whenever I need guidance on a complication or difficult cases, I can get advice from international experts within 24 hours.

CHRIS JOHNSON

## IMCAS Alert

### YOUR 24/7 EXPERT-TO-EXPERT ADVICE

*This innovative tool allows users to anonymously present cases and quickly receive expert advice from other members of the community in three easy steps. Become part of the IMCAS Alert community, exclusively through your IMCAS Academy premium account.*

#### STEP 1: Choose your topic

Select the theme that best suits your case from injectables and threads, lasers and EBD, and plastic surgery. More themes are planned for the near future.

#### STEP 2: Submit your case anonymously

Submit all the details relevant to your case. It will then be visible to IMCAS Academy's community of experts.

#### STEP 3: Get answers from experts

Experts in the IMCAS Academy offer advice on your case, moderated by the coordinators. Make sure to update the community on what advice you followed and the outcome.

*When it was released in January 2017 Alert was an instant success. In 10 months 95 cases have been submitted, and there have been more than 900 individual exchanges between experts.*

**REGISTER NOW**

# VOTIVA BE IN TRIGUED

Now, physicians have a new choice that is effective, easy and painless, for both internal and external feminine care.

Votiva by InMode is a therapeutic treatment for **sexual dysfunction** or as an adjunct to Kegel exercises (tightening of the muscles of the pelvic floor to increase muscle tone).

## ADD ADDITIONAL REVENUE STREAMS TO YOUR PRACTICE

Votiva offers your office an in demand patient procedure that helps you with declining managed healthcare reimbursements. Over half a million procedures of feminine rejuvenation were performed in 2016, generating more than \$500 million in incremental fees for practitioners. By 2021, over 27,000 devices will be in use per this forecast, producing an estimated \$ 2.2 billion in fees.

- Medical Insight Annual Aesthetic Practice Survey, January 2017

## FEMININE CARE AND WELLNESS

- ◆ Additional Revenue Streams
- ◆ Immediate Gratification
- ◆ Greater Tightening of Muscles
- ◆ Safe, Gentle & Effective

**ROI** PROFIT WITH JUST ONE VOTIVA  
PROCEDURE A MONTH
